

LIQUI MOLY

**RAPID, SAFE, CLEAN:
AIR CONDITIONING
SYSTEM
CLEANING.**

NO BACTERIA, NO MUSTY ODORS.

Poor air in your car? If your air conditioner produces unpleasant odors inside your car, then this is a clear sign that you are being infested by bacteria, germs, pollen or mold. It not only smells bad but can also cause allergies.

LIQUI MOLY provides several reliable cleaning methods for any degree of contamination that are within everyone's price range. It removes the odor from the ventilation as if it had been blown away. We recommend that you should clean your air conditioner at least once a year or during every service undertaken at the workshop of your choice, in order to keep your air conditioner clean.

END CONSUMER

Klima Refresh

Quickly frees the air conditioning of unpleasant odors that are caused by bacteria and mold in air conditioning systems, ventilation ducts or vehicle interiors. Simple to use without removal of the pollen or dust filter. Promotes pleasantly fresh air.

Contents 75 ml part no. 20000

SEMI-PROFESSIONAL CONSUMER

A/C System Cleaner

Special cleaner to optimally and economically free air conditioners from fungus and bacteria. Leaves a fresh, pleasant scent after cleaning. Comply with the automobile manufacturers' service recommendation specifications on cleaning air-conditioners. **Use biocides safely. Always read the label and product information before use.**

Contents 250 ml part no. 4087

WORKSHOP SOLUTION

A/C System Cleaner

Special cleaner for removing soiling and unpleasant odors quickly and effectively from A/C systems. Leaves a clean evaporator surface and a pleasantly fresh fragrance after cleaning. All service recommendations released by vehicle manufacturers regarding the cleaning of air conditioning systems are to be followed.

Contents 1 l part no. 21921

Contents 5 l part no. 21922

Air-Conditioner System Cleaner Gun

Special cleaning gun for optimum processing of the specially developed Air Conditioning System Cleaning Fluid (part no. 21921/21922). Enables optimum atomization of the cleaning fluid and thanks to the spherical spray jet ensures 99.9 % removal of mold and bacteria such as legionella from the air conditioning system. The very flexible spray probe allows even the most remote corners to be reached. We recommend that the tips given in our cleaning instructions are observed.

Part no. 4090

ULTRASONIC CLEANING DEVICES

A/C Cleaner ULTRASONIC

Removes microbes, mold and bacteria (e.g. legionella) quickly and easily (approx. 10 minutes) from car and commercial vehicle air conditioning systems as well as the entire ventilation system. Eliminates unpleasant odors in vehicle interiors and delivers a light citrus fragrance as well as fresh, clean air. Annual cleaning is recommended as part of the inspection. **Use biocides safely. Always read the label and product information before use.**

Contents 100 ml part no. 4079
